## Littlestown Foundry: Doing It Right for 100 Years

For 100 years, Littlestown Foundry Inc. has been making North America's finest iron and aluminum castings for commercial use.

Emory and Luther Snyder opened The Littlestown Hardware & Foundry Co. Inc. in 1916 as a gray iron foundry that employed 16 and made hardware items under the name Littco, door stops, book ends and castings for commercial customers.

During World War II, most of the production was for the war effort, including 1.2 million hand grenades, 3 million rifle grenades, 3 million bomb plugs and thousands of anti-personnel mines.

The plant made its first aluminum castings in 1939, with all future expansion being related to aluminum casting production. The 1950's began production of the first aluminum awning and marine hardware items that are still made today. Iron foundry operations closed in 1990, ending production of vises and other iron hardware items and commercial castings after 74 years. In 1999, the name was changed to Littlestown Foundry Inc., since aluminum commercial castings were the main focus of the business.

Littlestown Foundry is one of the most modern aluminum foundries in the nation, producing the highest quality commercial-use aluminum castings for the electrical transmission, fire-fighting, industrial hose connection, automotive and many other industries. On average, the production facility turns out approximately 1,600 molds each day. The foundry is ISO 9001:2008 certified, meaning it consistently provides product that meets customer, statutory and regulatory requirements and aims to enhance customer satisfaction through continual improvement.

The foundry has received many accolades over the years. Most recently, *Modern Casting Magazine* named it the best green sand match plate molding aluminum foundry in the North America. *Quality Magazine* named the foundry as one of the top performing 100 plants for the past several years.

Four generations of family ownership, along with many other key owners and managers, have guided the company since its beginning. Today's officers and directors are:

- Steven L. Snyder, Board Chairman and President
- Glen E. Morrell, Director, Vice President, Secretary and Treasurer
- Leonard L. Potter, Director and former President
- Larry W. Smeltzer, Director and former Vice President of Operations

**We thank all of our past and current dedicated employees and loyal customers for making our first 100 years possible. Working together, our commitment to excellence will continue to guide us for many years to come.**
